

Evos®+Weevos®  
Where Innovation Comes to Life

Weevos® Ages 2 to 5

Evos® Ages 5 to 12

# Gyroscopic world of play

The shape of play quickly changed with the introduction of Evos® for 5- to 12-year-olds and Weevos® for 2- to 5-year-olds.

Gyroscopic worlds create an environment where play is possible in every direction and dimension. Unexpected, inventive components beg to be explored — mentally, physically and through countless new games. While other playsystems are linear and scripted, the spherical design of Evos and Weevos opens up a fascinating world, unscripted play routes and limitless entry and exit points that stimulate kids' imaginations and senses of adventure. This playsystem is so innovative that it is covered by U.S. Patent No. 8,021,240.\*

## **Patent approved design to shape bodies and minds.**

Exploring Evos and Weevos is only half the fun. Age-appropriate challenges flex kids' muscles and stretch their imaginations!

Whether it's little feet crossing the Weevos Bobbity Bridge® or bigger feet maneuvering the Evos Crescent Climber®, kids learn about cause and effect, build problem-solving skills and develop spatial awareness. And the fun “grows” on! Where the challenge level of Weevos ends, Evos begins.

At Landscape Structures, we believe that all children deserve places where they can explore, create and make friends. Our expert designers can help ensure that your design meets ADA requirements. Plus, with accessible safety surfacing, all Evos and Weevos components are 100 percent ground-level accessible!

\* Steve King et al., 2011, *Configurable Multi-Arch Play Systems*. Patent No. 8,021,240, 9-20-2011

# Evos®

## Gyroscopic Fun

Evos® attracts kids with its unconventional appearance and endless opportunities for unstructured fun. Its ground-to-ground arches allow kids of all abilities to join in the fun. And with its unobstructed design, Evos enables easier supervision because there are no walls or places for children to hide. But most importantly, within its unexpected environment, Evos lets kids spontaneously play while building muscle strength, endurance and mental agility.

**To see kids in action on Evos, go to [playlsi.com](http://playlsi.com). Search Keyword: Evos Videos**

### Evos

- More than 30 play components create endless configurations; perfect for multi-phase solutions.
- With the appropriate surfacing, all Evos play components are 100 percent ground-level accessible.
- Offers 30 percent reduced carbon footprint compared to traditional playstructures for a more sustainable option.

# Evos® components: endless configurations and fun.

## Bridges

- 1 **PodStomper® Bridge** *(See Below)*  
It's all about balance and teamwork on this versatile event.  
#156464A
- 2 **Swiggle Stix® Bridge**  
Improves balance, agility and depth perception as kids step from pod to pod and shift their body weight.  
#156450A

## Climbers

- 3 **Belt-Zone™ Climber**  
The Belt-Zone climber allows children's imaginations to soar! This unique, suspended climber creates a wiggly, fun and wavy adventure through the Evos® playsystem.  
#179222A
- 4 **O-Zone® Climber**  
Hanging ring climbers challenge kids mentally and physically as they figure out the best way to go through, over or around.  
#156448A
- 5 **Hemisphere Climber®**  
Challenges kids with limitless climbing routes and angles. Can also be installed as a freestanding play event.  
#156447A

- 6 **Helix Net® Climber**  
This twisty net climber offers unexpected challenge and makes a cool place to sit, bounce and watch the action.  
#156449A
- 7 **BalanceWinder™ Climber**  
Kids develop balance and agility as they counterbalance their body weight against gravity.  
#160252A
- 8 **RingTangle® Climber**  
A tangle of loops keeps kids thinking as they climb on top, or cross hand-over-hand underneath.  
#156462A
- 9 **Web Link® Climber**  
A way to connect two Evos playsystems for endless action.  
#156912A
- 10 **Crescent Climber®**  
Kids experience the excitement of a rope challenge course in this creative climber.  
#156461A

## Overhead Events

- 11 **Overhead Explorer™ Parallel Bar**  
The overhead bar has a high, sweeping arc for a challenging hand-over-hand journey.  
#160253A
- 12 **Overhead Trekker™ Ladder**  
The cool, flowy arc helps kids build upper-body strength and hand-over-hand coordination.  
#160254A
- 13 **ArcOver® Ladder**  
As the climbing angle increases, so does the challenge.  
#156457A
- 14 **Bow Ladder®**  
Curved overhead ladder builds upper-body strength and coordination. A fun way to connect two Evos playsystems.  
#156463A

## EVOS® AGES 5 to 12

### Gliders/Slides

- 1 **Hang Glider®** *(See Below)*  
Kids can shimmy up, slide down and swing through this wavy combo event.  
**#156465A**
- 2 **Rush™ Slide**  
An exhilarating ride with an integrated hood and platform for a safe transition.  
**#182865A**
- 3 **Surf Slide**  
Designed especially for Evos®, features unique design and slip resistant deck surface.  
**#182180A**
- 4 **Surf Stainless Steel Slide**  
A highly durable slide that does not emit a static charge.  
**#182181A**

### More Fun

- 5 **Noodle Pod® Steps**  
Great for connecting Evos play events or just hanging out.  
**#156959A-C**
- 6 **E-Pod® Step**  
Attaches to Evos arches to help kids gain access to various play components.  
**#156454A**
- 7 **Blender™ Spinner**  
Kids experience the power of centrifugal force while the playground spins by.  
**#156460A**
- 8 **Gyro Twister® Spinner**  
Kids learn about centrifugal force and how their body position affects speed.  
**#156459A**
- 9 **Power Lifter™ Chinning Bar**  
Kids build upper-body strength on this unusual, arched bar.  
**#160208A**
- 10 **TwirlWind™ Turning Bar**  
Kids develop core muscle strength and coordination with this wavy add-on.  
**#160210A**
- 11 **Accessible Power Lifter Chinning Bar**  
Kids of all abilities can participate and develop upper-body strength.  
**#160209A**
- 12 **Trail Tracker® Reach Panel**  
Features a different maze on each side for double the usability and fun.  
**#161778A**
- 13 **Chimes Reach Panel**  
Kids of all abilities can make their own music.  
**#161777A**
- 14 **Navigator Reach Panel**  
Features a steering wheel and moveable gearshift knob for driving fun.  
**#161779A**
- 15 **Periscope Reach Panel**  
Periscope moves forward and side-to-side for lots of different views.  
**#161775A**
- 16 **Wobble Pod® Bouncer**  
Bouncy, wiggly benches encourage balance and cooperative fun. Great way to connect Evos events.
- 17 **Chatter Noodle® Talk Tubes**  
Kids can experiment with sound and talk "long distance" to friends.  
**#156453A**
- 18 **Cycler**  
Approachable from both sides, this accessible cycler lets kids of all abilities join in the fun as they build upper-body strength.  
**#156467A**

#### Image Reach Panel

Blocks turn to letters, numbers and designs.  
**#161780A** *(not shown)*

#### Match 3 Reach Panel

Kids take turns trying to match three in a row to win.  
**#161776A** *(not shown)*

# More ways to add fun.

With Evos®, there's no limit to the fun you can create. Add phases as your budget allows.

## Phase 1

Start with a 1-, 2-, 3- or 4-arch Evos® playsystem.

Design No. 3445  
Color Palette D shown

Design No. 3413  
Color Palette B shown

## Phase 2

Add another Evos playsystem to extend the fun or to increase capacity.

Design No. 3447  
Color Palette I shown

## Phase 3

As your community grows, connect a third or even fourth Evos playsystem or add more components to extend the fun.

Design No. 1930  
Color Palette G shown

## Weevos®

### Wee Fun

The Weevos® playsystem is designed especially to promote 2- to 5-year-old growth and development in six key areas: physical, balance, cognitive, sensory/motor, emotional/social and language. Toddlers and preschoolers can hop up and across the Swiggly Stix® Bridge, climb and use their imaginations as they play on the Wee Planet™ Climber, and hide and crawl through the Wee Crawl® Tunnel. Sensory panels like the Marble Panel® and Bongo and Xylofun Panel® encourage self-expression and let creativity run wild. Best of all, Weevos safely lets our littlest explorers bee-bop and giggle with just the right amount of wiggle, and clear sight lines let supervisors keep their eyes on all the action!

#### Weevos

- More than 20 play components create endless configurations.
- With appropriate surfacing, all Weevos® play components are ground-level accessible.
- Offers 17 percent reduced carbon footprint compared to traditional playstructures for a more sustainable option.

## Create a design that fits your space and your budget.

With so many giggly fun play components and play panels, you can create a Weevos® environment for your littlest visitors. Just choose your favorite play components, then your colors. The choice for fun is yours!

## Weevos® play events.

Each Weevos playsystem is made of play events specially sized and scaled just right for the grips and strides of kids ages 2 to 5. And safety is always a priority, every inch of the way.

### Slides

#### 1 Cozy Coaster® Slide

The whimsical design hugs kids' bodies as they slide while encouraging balance, coordination and vestibular sensory stimulation.

**#164174AB**

### Climbers

#### 2 Gigggle Jiggler® Climber

Little ones love to balance on this wiggly climber while gaining vestibular and proprioceptive sensory stimulation.

**#164171AC**

#### 3 Wee Planet™ Climber

This sturdy climber promotes balance and coordination and is great for self-directed play.

**#173573A**

#### 4 Wee Pod® Climber

These little pods are big on promoting balance, coordination and proprioceptive stimulation.

**#164172AD**

### Bridges

#### 5 Boppity Bridge®

A safely wobbly, not-too-high bridge encourages balance and coordination.

**#164178A**

#### 6 Swiggly Stix® Bridge

This fun bridge promotes balance and depth perception. The 6", 10" and 14" pods secured with cable are sturdy on the bottom, wiggly on top.

**#173575A**

### Tunnel

#### 7 Wee Crawl® Tunnel

A cool place to explore or just get away from it all.

**#173574A**

## More Fun

### 1 Color Splash Panel™

A great way for kids to get visual input while developing dexterity. Encourages cognitive development on both sides!

#177715

### 2 Rain Sound Wheel Panel™

A great way for kids to get auditory and visual stimulation on both sides while developing dexterity. Encourages cognitive development and imaginative play.

#177720A-B

### 3 Imagination Table™

This fun play station helps kids develop socially and creatively.

#173582A

### 4 Marble Panel®

Brilliant wall of marbles offers a sensory-rich visual, auditory and tactile experience.

#173581A

### 5 Fun Mirror Panel®

Rotatable, two-sided concave/convex mirror engages peripheral vision and visual tracking.

#173577A

### 6 Kaleidospin Panel®

Rotating prisms and a kid-operated eyepiece provide engaging visual stimulation.

#173580A

### 7 Optigear Panel®

A fun way for kids to get visual sensory input.

#173578A

### 8 Bongo Panel®

Our cool bongos create low, resonant tones that provide deep auditory stimulation.

#173584A

### 9 Xylofun Panel®

Interactive scale promotes auditory stimulation and musical play.

#173579A

### 10 Alphamaze and Labyrinth Panel®

This two-sided panel promotes hand-eye coordination along with tactile fun.

#173576A

*Other two-sided panels not shown:*

**Bongo and Xylofun Panel® #173583A**

**Bongo and Alphamaze Panel® #173715A**

**Xylofun and Alphamaze Panel® #173716A**

### 11 Twirly Bar

Small athletes can twirl, whirl and practice pull-ups. The Twirly Bar promotes proprioceptive stimulation.

#164173A

### 12 ChitterChatter® Talk Tubes

Imaginative, social fun created just for Weevos®. Talk tubes can be added independently to any design.

## Freestanding Play Events

Pack more play into your playground! Choose from climbers, spinners, swings, sensory stimulation and encourages interactive play. To view all of our freestanding play events, visit [playlsi.com](http://playlsi.com). 

### 1 OmniSpin® Spinner

Offers valuable vestibular sensory stimulation and encourages interactive play.

#173591A

### 2 Flywheel™ Spinner

This multi-user spinner invites kids to hang on and play together, providing lots of social interaction, along with vestibular stimulation.

#164174AB

### 3 Oodle® Swing

Provides an interactive swinging adventure for oodles of kids. Comfortably seats four to six children at once and offers a mobility device transfer point.

#173592A

### 4 Eclipse® Net Climber

An exclusive Landscape Structures design, this is a great addition to your playground and can accommodate up to eight Aeronet® seats.

#173753A

### 5 We-saw™

This seesaw invites kids and families of all ages and abilities to participate in the fun, providing opportunities for collaborative play and teamwork.

#186490A

### 6 Stand-Up Spinner

Helps kids learn about centrifugal force as they use their body weight to spin and develop better depth perception and balance.

#164174A

### 7 Bobble Rider™

Provides tons of springy, wobbly, bobbly action for one or more kids.

## Site Furnishings

The modern style of our Designer Site Furnishing Collection is the ideal complement to the Evos® and Weevos® playsystems. The eye-catching arched shape of the play structures are replicated in the shape and detail of these site furnishings. Choose colors to match your playstructure.

### Arches Bench

- Pipe available in any ProShield® color
- Bench available in your choice of any 2-color Permalene®
- Direct bury or surface mount
- 17" H x 70" L
- #185915A

#### Arches Recycling Receptacle and Arches Litter Receptacle

- Laser-cut steel barrel in your choice of ProShield color
- Lid in your choice of 2-color Permalene
- Lid attached with cable
- 32-gallon liner
- #186587A Recycling
- #186586A Litter

#### Arches Bike Rack

- Available in any ProShield color
- #185654A Single (*three singles shown here*)
- #185653A Triple (*shown in large photo above*)

## Shade and Surfacing

### CoolToppers® Shade Systems ▲

- Keeps kids cool while they play
- Blocks up to 90 percent of harmful UV rays
- Keeps playground temperatures up to 30-degrees cooler
- Available in a variety of sizes and configurations
- Choose from seven vibrant colors

### PebbleFlex® Safety Surfacing ▼

- Provides enhanced safety and durability
- Incorporate custom graphics and logos to personalize your play area
- Available in five standard color blends

### Steel-reinforced cables

Made of tightly woven, polyester-wrapped, six-stranded galvanized-steel cable. These abrasion-resistant, color-stable cables are extremely durable and vandal resistant. Powered by Berliner Seilfabrik, one of the most experienced manufacturers of steel cables in the world, with a global reputation for top quality since 1865.

### Cable connectors

Count on these durable, cast-aluminum connectors to keep kids safe as they climb, bounce, tug and swing. Connectors have been tested to a minimum weight of 3,500 pounds each.

### Galvanized-steel arches

These hefty, corrosion-resistant arches are incredibly strong and durable. Our unique ProShield® finish ensures that they'll stay great- looking for years to come.

### Cast-aluminum ball connectors

Our two-piece cast-aluminum ball connectors house an innovative and versatile ball-and-socket clamping system designed especially for the Evos® and Weevos® playsystems. They provide a minimum of 6,500 pounds of clamping strength to hold each solid-steel ball and 2-3/8"-steel supporting arch in place at any angle.

## Warranty

Landscape Structures offers the most comprehensive long-term warranty in the industry.

**100-year limited warranty:** on all Evos and Weevos steel posts and arches against structural failure due to material or manufacturing defects.

**15-year limited warranty:** on all plastic and steel components against structural failure due to material or manufacturing defects.

**8-year limited warranty:** on climbing cables against defects in materials or manufacturing.

## Big-time fun, small environmental impact.

Landscape Structures believes that honoring the environment is one of the best things we can do for children. That's why we designed the Evos and Weevos playsystems to minimize our manufacturing impact on the environment. The result? Up to 30 percent smaller carbon footprint than traditional playstructures for Evos and Weevos. Plus, they are made of recycled material including post-consumer recycled material, and are 100 percent recyclable.

## Welcome/Safety Sign

Greet playground visitors with a helpful Welcome Sign, **free** with purchase of any qualifying Landscape Structures playsystem. Our signs prominently display age-appropriate safety information for kids and their supervisors, enhancing the value of your purchase. Purchase additional signs for multiple entry points or to personalize your play area.

**Better playgrounds.  
Better world.®**

**Since 1971, Landscape Structures**  
**has been committed** to enhancing  
children's lives by fostering and  
creating inspiring play experiences  
while honoring the environment.  
We create innovative playground  
equipment to inspire children to  
grow strong bodies and minds so  
their futures remain bright. And to  
further ensure a better tomorrow,  
we are sensitive to the environment  
through manufacturing practices  
that minimize our impact on the  
earth. Our goal from day one has  
been to foster healthy children  
playing in healthy communities  
year after year, generation  
after generation.
