Congratulations !

Thank you for choosing our innovative and technologically advanced torches. Our expertise in design and production, using premium materials, makes our products durable and able to last for years. We continuously improve our products.

⚠ ATTENTION

WARNING: Before using the underwater light, make sure you have read this instruction manual in full. **WARNING:** Our team is not responsible for any accidents due to mishandling of the product. **WARNING:** Never point the light directly into your own or other people's eyes, either on land or underwater. **WARNING:** Do not use the underwater torch for any purpose other than its intended use.

General Warnings

- Do not point the light beam directly into the eyes.
- Do not direct the beam at dry, flammable materials for long periods of time.
- Do not place the torch near extreme heat sources.
- Use only original spare parts

Operation

One-button control:

Push forward for once to switch the 1600 lm LED on, then

push again to switch off.

Push forward for more than 2 seconds to activate strobe

mode, then push again for more than 2 seconds to

deactivate strobe mode.

The LED-STROBO functions are independent, they can also

operate simultaneously.

Autonomy Indicator

(during immersion)

Green - battery: 15%-100%

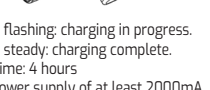

Flashing green - battery: <15%

Autonomy: 4 hours

Recharging the torch

Connect the magnetic connector as shown:

Green LED flashing: charging in progress.

Green LED steady: charging complete.

Charging time: 4 hours

*Using a power supply of at least 2000mA

Product features

- Underwater 100M IPX-8
 - Lithium-ion rechargeable battery, easy to use- Magnetic recharging
 - Maximum output brightness: 1600 lumens
 - LED lifetime 100000H
 - Application: outdoor activities, diving, camping, hiking, cycling, etc.
1. Torch
 2. Lanyard
 3. Magnetic USB charging cable

Specifications

LED	1*Luminus SST 40
Max. brightness	1600 lumens
Operating time	4 hours
Beam distance	290 m
Beam intensity	20000 cd
Colour temperature	5700~7300 K
Beam angle	11°
Shock resistance	1,5 m
Waterproof	IPX8
Battery	1* 21700 Battery 5000 mAh
Size	φ38*161 mm
Net Weight	196g (with battery)

Warranty Period

Our liability is limited to the obligations listed below, unless prohibited by law. The legal guarantee only covers problems identified during the guarantee period. When the products are opened, the 24-month period for transportable products begins. The consumer must inform our team of any problems with the products within two months from the date of identification.

Warranty Exclusions

The guarantee does not cover: 1. Defects resulting from the regular use and handling of the product. 2. Defects made on purpose. 3. Defects resulting from inadequate storage or shipment by the consumer or logistics provider. 4. Improper or incorrect use, inadequate or improper maintenance, or damage or harm related to the care of the product. Defects caused by non-compliance with the user manual 6. Defects caused by improper assembly or mounting. Defects caused by incorrect assembly or adjustment 7. Defects based on modifications made to the product by the consumer. 8. Defects caused by dropping, abnormal pressure, rotational stress, compression, sharp object or other factors. The guarantee is invalid if 1. The product has been modified or fixed by anyone other than our team or our dealer. 2. Unauthorised spare parts have been used to repair the product. 3. The serial number of the product has been modified, changed, removed or made illegible.

Warranty Requests

For all warranty claims, please contact the dealer where you purchased the item as soon as you become aware of the problem and provide the defective item and the original sales receipt. If the retailer can no longer be reached, please contact our customer service. For any other questions, kindly contact your dealer. The full name of the product, the name and address of the dealer and the date of purchase must be stated on the original purchase receipt. If the original purchase receipt is not provided or is unclear, our team or dealer reserves the right to reject warranty claims. Our team or the retailer will replace the item at no cost if the warranty claim is approved. If you request a solution and the current product is no longer available or the cost of repair is unaffordable, we have the right to choose an alternative remedy, unless you request termination of the contract or a reasonable reduction in price.

Exemption from liability

We shall not be liable for any damage or consequential damage resulting from the use of the product, regardless of whether such claim is based on the purchase contract, a statutory warranty claim, or negligence, or whether the claim concerns damage to property other than the product itself, loss of use of the product or other property, or loss of profit. This guarantee may not be transferred or assigned to the rights granted.

Maintenance

Always rinse the torch in fresh water after an immersion session. Do not leave the torch to dry in the sun. This helps to safeguard the O-rings. Do not store the torch when it is wet or even slightly damp. Storing a wet dive torch increases the possibility of corrosion. Always make sure it is dry before storing it.
