# NOTRE HISTOIRE

Tout a commencé en 1973, à Apt, lorsque Jean-Paul BLACHERE illumine sa première rue.

Les sourires et les visages des habitants lui confirment alors que la lumière a un pouvoir magique.

Il en fait un métier, une passion, un savoir-faire unique qu'il transmet avec amour et tradition.

Depuis plus de 50 ans, nous imaginons et créons les décors et les illuminations de plus de 80 pays dans le monde.

Depuis 1998, Blachere Distribution offre un service adapté au monde de la maison.

Avec la même passion, nous vous proposons une collection inspirée et innovante.

## ◆ LONGUEUR 9,9m - 100 LED - 5V - PCBx1

| Couleur LED                                                                                     | Référence    | EAN                                                                                 | Prêt à vendre                                      |
|-------------------------------------------------------------------------------------------------|--------------|-------------------------------------------------------------------------------------|----------------------------------------------------|
|  Blanc Pur   | PAV-<br>RA02 |  | <b>48 PIÈCES</b><br><i>(16pcs<br/>par couleur)</i> |
|  Blanc Chaud |              |                                                                                     |                                                    |
|  Multicolore |              |                                                                                     |                                                    |

### La guirlande idéale pour illuminer votre sapin

Blanc pur, blanc chaud ou multicolore, technologie Led ou Microled, la guirlande lumineuse est l'accessoire indispensable pour décorer votre sapin.

Afin de choisir la longueur idéale de guirlande pour recouvrir complètement votre sapin selon sa taille, nous vous proposons ci-dessous un tableau de correspondance hauteur du sapin / longueur de la guirlande:

| Hauteur du sapin                                                                                   | Longueur de la guirlande Led                                                                     | Longueur de la guirlande MicroLed                                                                |
|----------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------|
|  60 à 80 cm   |  3,5 mètres |  4 mètres   |
|  80 à 120 cm  |  5 mètres   |  6 mètres   |
|  120 à 180 cm |  8 mètres   |  7,5 mètres |
|  180 à 210 cm |  16 mètres  |  15 mètres  |

# ACCESSOIRES

## KIT GUIRLANDES GUARLANDS KIT

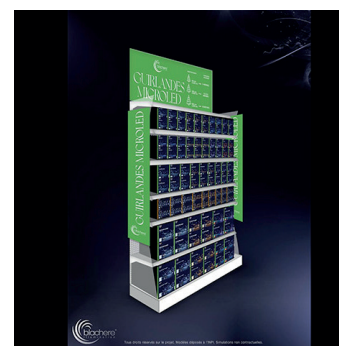

### PLVCG<sup>N</sup>

KIT COMPACTS ET GRAPPES - Composé : 1 fronton + 2 oriflammes avec supports magnétiques télescopiques - PCB X1  
Composed of: 1 pediment + 2 flags with telescopic magnetic supports

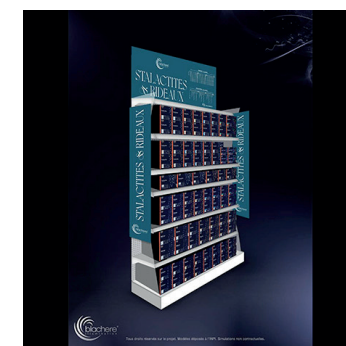

### PLVGD<sup>N</sup>

KIT GUIRLANDES FLICKERS - Composé : 1 fronton + 2 oriflammes avec supports magnétiques télescopiques - PCB X1  
Composed of: 1 pediment + 2 flags with telescopic magnetic supports

### PLVML<sup>N</sup>

KIT MICRO LEDS - Composé : 1 fronton + 2 oriflammes avec supports magnétiques télescopiques - PCB X1  
Composed of: 1 pediment + 2 flags with telescopic magnetic supports

### PLVRS<sup>N</sup>

KIT RIDEAUX ET STALACTITES - Composé : 1 fronton + 2 oriflammes avec supports magnétiques télescopiques - PCB X1  
Composed of: 1 pediment + 2 flags with telescopic magnetic supports

### PLVSOL<sup>N</sup>

KIT PLV GONDOLE SOLAIRE - Composé : 1 fronton + 2 oriflammes avec supports magnétiques - PCB X1  
Composed of: 1 pediment + 2 flags with magnetic supports
